Inside the Relax XC

The Harmony Relax XC features a specialized 10-inch, two-layer construction designed to provide immediate comfort and long-lasting structural integrity under higher weight capacities.

- **The Comfort Layer:** 2" CoolGel Flex High Capacity surface foam delivers balanced, responsive comfort. This thoughtfully firm surface makes rolling over and transitioning in and out of bed easier, while actively dissipating heat for a cooler sleep environment.
- **The Support Core:** 8" High Capacity base foam provides a dense, ultra-durable foundation that prevents bottoming out and ensures years of reliable, heavy-duty support.
